

Evo Grow

SR-8 840W LED 208-480V

The Evo Grow SR-8 840w LED allows for high performance lighting in vertical and low mounting applications. This powerful, full-spectrum, 840 watt light is intended for experienced growers for full-time use in the vegetative stage through the higher PPFd flower stage.

POWER	SPECTRUM	PERFORMANCE	AMPS / VOLTS	ACCESSORIES
840 Watts	3,950K High Red Full Spectrum	PPE: 3.0 umol/s PPF: 2,520 umol/J	3.5A @ 240V 3.0A @ 277V 1.8A @ 480V	8FT AC Power Cord RJ12 Dimming Cord Hanging Gear

PERFORMANCE

With a power consumption of 840 watts and an impressive output of 2,520 PPF (Photosynthetic Photon Flux), this fixture promises unparalleled efficiency (3.0) for commercial cannabis.

SPECTRUM

Our High Red Full-Spectrum offers light emission across the PAR 400-750nm wavelength range. We balance efficiency with quality of light to achieve the desired plant response and work environment.

EXTERNAL CONTROL

0-10 V (Option) fixture is equipped with an external RJ12 cable and allows for daisy chained installation of up to 200 fixtures per controller. (100 fixtures per controller port).

RELIABILITY

LED & PCBA protected with conformal coating to resist moisture and avoid corrosion. Offers above industry standard surge and IP66 water/moisture/dust protection. Less than 1% failure rate over warranty period.
