

Evo GROW

Under Canopy 120w LED

The UCL 120w LED allows for high performance lighting in vertical and low mounting applications. This powerful, full-spectrum 120 watt light is intended for experienced growers full-time use in the vegetative stage through the higher PFPD flower stage.

PERFORMANCE

PPE: 3.0 umol/s
PPF: 360 umol/J

SPECTRUM

High Red
Full Spectrum

POWER

120 Watts

VOLTS / AMPS / MAX PCS

120v / 1.0a / 10pcs
240v / 0.5a / 17pcs
277v / 0.43a / 20pcs

ACCESSORIES

8ft AC Power Cord
RJ12 Dimming Cord
120v / 240v Plugs
Daisy Cable

PERFORMANCE

With a power consumption of 120 watts and an impressive output of 360 PPF (Photosynthetic Photon Flux), this fixture promises unparalleled efficiency (3.0) for commercial cannabis.

SPECTRUM

Our High Red Full-Spectrum offers light emission across the PAR 400-750nm wavelength range. We balance efficiency with quality of light to achieve the desired plant response and work environment.

EXTERNAL CONTROL

0-10 V (Option) fixture is equipped with an external RJ12 cable and allows for daisy chained installation of up to 160 fixtures per controller. (80 fixtures per controller port).

RELIABILITY

LED & PCBA protected with conformal coating to resist moisture and avoid corrosion. Offers above industry standard surge and IP66 water/moisture/dust protection. Less than 1% failure rate over warranty period.

FULL SPECTRUM

DIMENSIONS: 44" x 2.9" x 3.3"
